40

**YEARS OF THE
SUNLEE BRAND
LEGACY**

For more than 40 years, the Sunlee brand has been proudly associated with premium Asian food products made from the finest natural ingredients, with coconut-based products representing one of our core product lines.

With the aim of enhancing our production of coconut-based products for the international market, we opened the Thai Lee Foods factory in 2016 to produce Sunlee brand premium quality coconut milk, coconut cream and coconut drinks.

2016

**THAI LEE FOODS FACTORY
WAS ESTABLISHED**

136,000

SQUARE-METER FACTORY SITE

1,000

**COCONUT MILK & COCONUT DRINK
FCLS PER YEAR**

Set on a 136,000-square-meter site, our state-of-the-art production and processing facilities incorporate the latest technologies and automation to ensure the highest standards of product quality and maximum production efficiency.

Our product quality and food safety standards are guaranteed through major food safety certificates, including GHP, HACCP, ISO and Halal, while our increased production now enables us to process 1,000 containers of coconut milk and 1,000 containers of coconut juice every year.

A year-round supply of
fresh Thai coconuts with
the authentic taste

100%

THAILAND'S PRIME COCONUT GROWING AREAS

With its excellent soil conditions and climate, Samut Songkhram is one of Thailand's most productive coconut-growing areas and a gateway to the country's coconut-growing provinces in the south. Having our factory located here gives us convenient access to an abundant year-round supply of fresh Thai coconuts.

RICHEST FRESH COCONUTS SELECTED

Thai coconuts are renowned for the rich pulp and sweet water that give our products the authentic taste that our customers around the world love. After selecting the freshest and richest Thai coconuts, we process them into coconut milk, coconut cream and coconut water at our certified state-of-the-art manufacturing facilities in accordance with our extensive Quality Control System that guarantees product safety and full compliance with all regulations.

SOCIALLY RESPONSIBLE HARVESTING

As part of our social responsibility campaigns designed to protect animals, people and the environment, we strongly oppose the use of trained monkeys in the harvesting of coconuts through our "No Monkey Business" policy.

Our World-Class Facilities

MODERN TECHNOLOGY

Delivering international standard products through *world-class production* facilities

Once the coconuts have passed our strict screening process, the process of turning them into premium quality products begins. Located on a 12-acre site, our 50,000 square meters of world-class production facilities feature state-of-the-art technology and strict quality control systems to ensure every product meets international quality standards.

AUTOMATED PROCESSING LINE

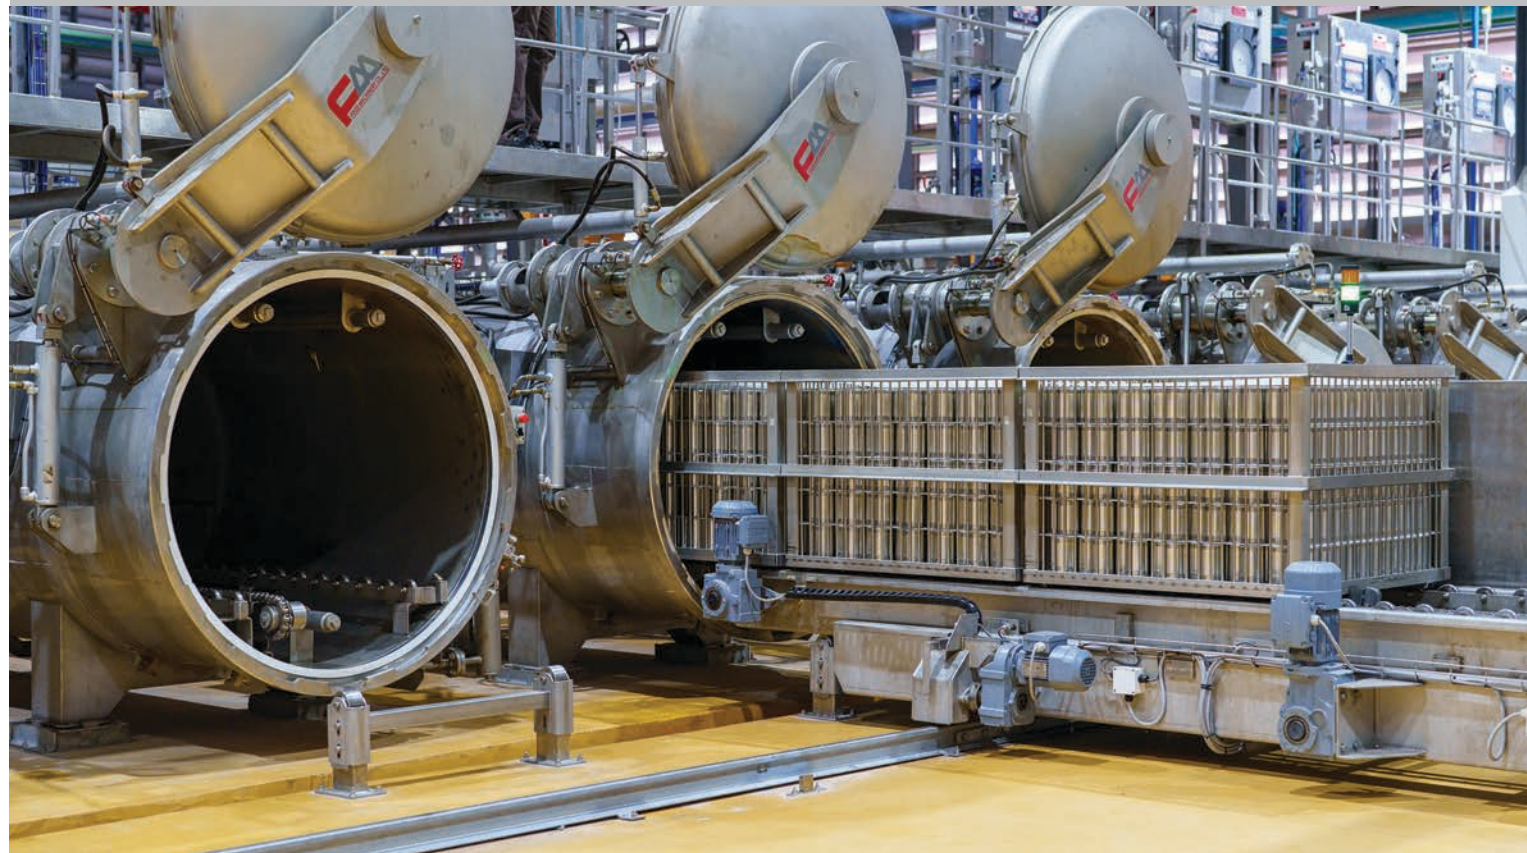

Enhancing the *efficiency* of our production processes

By utilizing smart automated production lines and packaging processes, we ensure strict compliance with our quality control and food safety standards while also increasing accuracy, consistency and efficiency.

Supporting *sustainability* with environmentally friendly production systems

GREEN FACTORY

Committed to minimizing our carbon footprint and emissions into the environment, we utilize renewable energy through rooftop solar panels and reduce energy consumption with energy-efficient equipment and lighting.

QUALITY CONTROL

Ensuring *international standard* production through strict quality control process

Raw Materials

All incoming coconuts undergo strict screening selection before being accepted into our production facility. They are tested physically and chemically for defects and contamination, while they also undergo taste and odor quality checks.

Finished Products

Our finished products also undergo various quality control procedures and an incubation period before they are approved for delivery to our customers.

Our Premium Products

The world’s favorite coconut-based products with the authentic taste our *customers love*

COCONUT CREAM

Coconut cream is the thick and rich white liquid extracted from grated mature coconut meat. It has a fat content of more than 20%. Coconut milk and coconut cream taste very similar, so choosing between them is all about the consistency and rich taste of the dishes being prepared. In addition to curry dishes, coconut cream’s rich and creamy texture make it perfect for desserts, cakes, smoothies and ice cream. It is also great in vegan cooking as a non-dairy cream.

SUNLEE
Canned Coconut Cream
WHITE label
20-22% fat content
all-purpose formula

BUDDHA
Canned Coconut Cream
BLUE label
20-22% fat content
dessert formula

COCONUT MILK

Coconut milk is the white liquid extracted from grated mature coconut meat. Used as a base ingredient in many Thai curries and desserts, coconut milk can also be used by vegans as a dairy-milk substitute in tea, coffee and all kinds of dishes.

SUNLEE
Canned Coconut Milk
BROWN label
17-19% fat content

SUNLEE
Canned Coconut Milk
RED label
17-19% fat content
all-purpose formula
with a lighter texture

Available size : 400 ml / 560 ml / 2900 ml

COCONUT DRINK

Coconut drinks are made with the clear coconut water that occurs naturally inside fresh coconuts. With a sweet and refreshing taste, coconut water has long been a popular drink in the tropics, including Thailand. In addition to being a delicious way to rehydrate, it is also a great low-calorie source of a variety of nutrients and minerals. Besides being drunk in its natural form, coconut juice is now also used as an ingredient in a variety of recipes, such as tom yum soup and agar as well as some puddings, cakes and smoothies.
